DUPONT Tyvek Forward Together

The most trusted name in safety

Superior protection and comfort start with Tyvek® 400

Built from flash spun high-density polyethylene, DuPont™ Tyvek® 400 provides an ideal balance of protection, durability and comfort like no other limited-use fabric. The nonwoven structure provides an inherent barrier to particles down to 1.0 micron—with no films or laminates to abrade or wear off.

Designed for abatement, maintenance, spray painting and cleanup jobs, Tyvek® 400 delivers consistent performance that helps keep workers comfortable and safe shift after shift.

- Inherent barrier protection
- Designed for durability and breathability
- Ergonomic fit for enhanced comfort and mobility
- Hood, stormflap and elastic closures for full-body coverage
- Latex-free construction

Scan to find the right coverage with Tyvek® 400

Tyvek® 400 Shoe & Boot Covers

Features:
- Applications include: lead and asbestos abatement/remediation, general maintenance/operations, spray painting, general clean-up.
- Protection is built into the fabric itself, there are no films or laminates to abrade or wear away.
- Tyvek® fabric offers an inherent barrier to particles down to 1 micron in size.
- Tyvek® fabric's durability advantage over microporous film and SMS fabrics delivers consistently better barrier, even after wear and abrasion.
- Tyvek® garments are composed of flash spun high density polyethylene which creates a unique, nonwoven material available only from DuPont.
- Tyvek® provides an ideal balance of protection, durability and comfort of any limited use fabric technology.
- One size fits most.

Bandanas

Cooling Towels

Features:
- Just add water.
- Towel temperature drops 15 to 20 degrees in 1 to 2 min.
- Once activated this product assists in lowering temperature.
- Absorbs up to 12 times its dry weight.
- Reusable.

Length: 27 in
Size Group: 17 in x 27 in

SKU	Material
118-91000	PVA Poly Vinyl Alcohol

Chill-Its® 6602 Evaporative Cooling Towels

Features:
- Super-evaporative PVA material to absorb water to then allow it to evaporate slowly for instant, long-lasting cooling relief.
- Designed to create a feeling colder than ambient air temperature and absorb and hold more water than other cooling towels on the market for a longer-lasting cooling.
- Can last up to 4 hours, simply re-wet to increase cooling duration.
- Run the PVA cooling towel under water for one minute or until saturated, wring out excess water and twirl or snap in the air for no-drip cooling.

Length: 29-1/2 in

SKU
150-12420

Chill-Its® 6603 Evaporative Cooling Bands

Features:
- Advanced PVA cooling technology.
- Super-evaporative, feels significantly cooler than ambient air.
- Activates fast and easy - run under cold water for one minute.
- 1/3 the size of the Chill-Its® 6602 with the same cooling power.
- Use as a neck wrap by pulling end of wrap through slit.
- Wear for hours or for quick relief.
- Simply re-wet to reactivate.
- Machine washable.

Length: 29-1/2 in

SKU
150-12418

Chill-Its® 6700 Evaporative Cooling Bandanas

Features:
- Activated polymers bring cooling power where you need it most.
- Activate by soaking in water for 2-5 minutes.
- Remains hydrated for up to 4 hours.
- Re-usable: just soak in water to re-activate.
- Bandana/headband - tie closure.

Length: 36.5 in
Material: Cotton

WORLD-CLASS MAINTENANCE, REPAIR, AND OPERATIONS SOLUTIONS

As a leader in the MRO industry, LPS® delivers superior maintenance chemicals to industrial, aerospace, food processing, military, contractor, and energy development facilities worldwide. These premium-performance chemicals save time and money by extending equipment life, reducing repair time, and lowering frequency of preventative maintenance.

THE SCIENCE OF GATORADE

Over 60 years of research prove that Gatorade has the right blend for fueling and hydrating – the perfect balance of flavor, electrolytes, and carbohydrates.

Why Gatorade?

When the body can't shed enough heat to balance the warmth generated by physical labor and external sources, it heightens the risk of heat-related illnesses. This is when Gatorade steps in.

Plain water will not replace the electrolytes lost through sweat, nor will it supply the energy that working muscles need. Gatorade provides both.

What Factors Lead to Workers Becoming Overheated?

Several components contribute to workers experiencing overheating on the job. These include the environmental conditions they work in, the equipment and heavy protective clothing required for their tasks, and the internal heat generated by physical labor.

For every hardworking individual, Gatorade stands unrivaled as the most tested hydration beverage.
